

HARD TARGET™

EXECUTIVE PRIVACY

For founders, attorneys, RIAs, wealth advisors and CPAs

Your clients aren't
the only ones
worth protecting.

Personal Digital Privacy for Trusted Professionals

RISE ABOVE.

Your professional visibility can reach home.

The professional exposure problem

A public bio, a company profile or a professional affiliation can connect your name to your work. Data-broker and people-search listings can extend that connection to home addresses and household relationships.

Why removal matters

Reducing supported listings can make personal information harder to find. Continuing maintenance matters because records change and information can reappear.

Coverage and results vary by source. Information may remain available or reappear.

Focused on your personal privacy.

Executive Privacy is a focused personal privacy and identity-protection engagement built on HIDE. Each adult receives complete individual HIDE benefits, secure enrollment, dashboard access and applicable individual policy coverage.

A fixed 12-month engagement

One purchaser pays for the household. Each adult independently authorizes their own HIDE work. We begin with a personal consultation and continue with care.

- | | | |
|----|----------------------------------|---|
| 01 | Personal-information removal | Ongoing scanning, supported data broker removal requests and progress tracking. Some final opt-out or verification steps need your participation. |
| 02 | Identity and breach monitoring | Historical and ongoing identity and breach monitoring, including deep- and dark-web monitoring for supported identifiers, with alerts and breach details. |
| 03 | Credit monitoring and tools | Credit monitoring and reports, score history, a score simulator and dispute tools. |
| 04 | Financial-account monitoring | Threshold monitoring for supported checking, savings, card, investment, brokerage, retirement and loan accounts, based on your configured information. |
| 05 | Your individual HIDE dashboard | Review alerts and removal progress, manage monitored information and access credit tools, restoration resources and insurance information. |
| 06 | Dedicated restoration assistance | One-to-one help from a dedicated U.S.-based specialist with paperwork, authorities and disputes on your behalf. Weekday case-opening support. |

Individual policy benefits: up to \$1 million in identity-fraud expense reimbursement per 12-month period. Eligible costs include certain legal expenses, lost base wages and replacement IDs. Cash Recovery and Investment & HSA Cash Recovery each have a \$25,000 aggregate limit; each is limited to one covered occurrence within 12 consecutive months and counts toward the \$1 million limit. Recovery from the financial institution must be pursued first. Policy terms, conditions, exclusions and benefit limits apply. Removal is not guaranteed; information may remain or reappear. Full Digital BUNKER services and protection of your practice's client systems are outside scope.

BY PRIVATE INVITATION

Your own household. A private conversation.

We created Executive Privacy for professionals in the trusted circles around the families we protect. It's a personal invitation to take better care of your own household, with no referral expectations or obligations.

We begin with a conversation.

We'll take time to understand your priorities, answer questions and help you determine whether Executive Privacy is the right fit.

We onboard with care.

After payment verification, we'll personally coordinate secure HIDE enrollment. Each adult enrolls and independently authorizes their own service.

We continue with personal attention.

Throughout your 12-month engagement, each adult receives individual HIDE benefits and continuing maintenance. We remain available for service questions and invite you to a personal annual privacy conversation.

Your privacy deserves the same thoughtful attention you bring to others.
